

Serving Clinical Trials, Specialty Clinics, Diagnostic Labs & Sterile Compounding Pharmacies Across Central Texas

Dedicated Active Cold-Chain Medical & STAT Logistics

DISPATCH PICKUP

Active Onboard Compressor Cooler (2°C–8°C / -20°C)

Active Temp Control

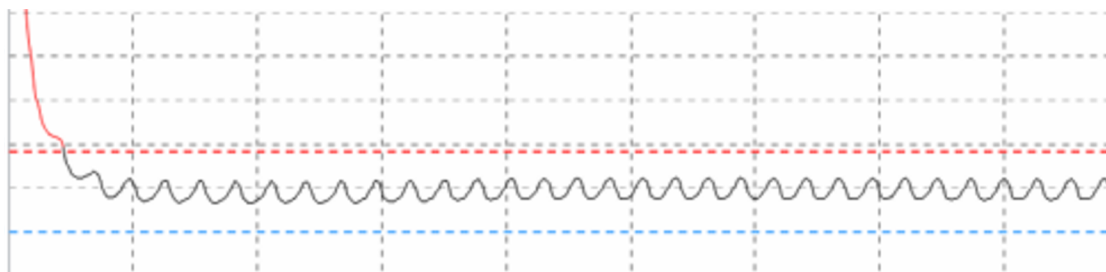

Powered refrigeration maintains strict temperatures without excursions. Direct point-to-point transport eliminates pre-analytical risks (e.g. hemolysis) from thermal drift and ambient Texas heat exposure.

Verifiable Telemetry

Continuous NIST-traceable 1-minute data logging with automated PDF audit reports. Real-time GPS transit tracking and chain-of-custody verification for every payload.

VALIDATED 12-HOUR ACTIVE HOLD (4.1°C – 6.0°C)

Scan for Capabilities & Digital Overview

Institutional Compliance & Operational Standards

Specimen Safety

Strict adherence to OSHA 29 CFR 1910.1030 Bloodborne Pathogen standards and UN 3373 Category B biological substance transport protocols.

HIPAA & Security

HIPAA Title II compliant chain-of-custody protocols with secure tamper-evident seals and digital medical staff delivery sign-offs.

Dedicated Transit

Fully insured with dedicated commercial auto and cargo liability coverage. Guaranteed STAT emergency dispatch and daily scheduled sweeps.
